

OVER-THE-TOP BOX

FOX

Add premium over-the-top services to TV.

Get the latest movies on your TV

FOX is a unique box delivering premium over-the-top Internet services to end users. FOX is at the same time a media player for all your personal content located in your PC, a movie rental inside your living room, and a replacement of your recorder thanks to its capability to playback TV shows. Connecting over WiFi or Ethernet to Internet, FOX can play the latest Hollywood movies from your couch, or catch up with your favorite TV shows, or view your personal content located on your PC or your mobile phone. FOX also enables you to benefit from revenue sharing based on several premium services.
