

HYBRID IP/DTT BOX

MOORE

Enrich free-to-air digital terrestrial television with premium over-the-top services.

Enrich DTT with Premium Content

MOORE delivers free-to-air high-definition digital terrestrial TV, plus premium over-the-top Internet services to end users. MOORE combines a high quality receiver, a movie rental inside your living room, a media player for all your personal content located in your PC and a replacement of your recorder thanks to its capability to playback TV shows. Designed to receive free-to-air digital terrestrial television, MOORE also connects over WiFi or Ethernet to Internet, and can play the latest Hollywood movies, your favorite TV shows, or your personal content located on your PC or your mobile phone. MOORE also enables you to benefit from revenue sharing based on some premium services.
